If yes, which organizations? _____

**NVCC Referral Exchange Network
Statement of Purpose**

The NRRC Referral Exchange Network groups function for the purpose of providing Chamber members with a regular, ongoing opportunity to develop relationships, new business opportunities, and actively network with other members. Groups are open to Chamber members in good standing only at no additional cost.

Each group consists of non-competing business professionals. Only one person per profession / business category is allowed in each group.

It is the expectation of all members that they will pass along qualified referrals and actively participate in One-on-One meetings with other members. In conducting One-on-One meetings members develop relationships with one another and are equipped with sufficient knowledge to generate referrals as opportunities arise.
